

Mr. Wycliff Gakenge

Nairobi, Kenya | murugiwycliff885@gmail.com | 0114550897 | [linkedIn.com/Wycliff Gakenge](https://www.linkedin.com/Wycliff Gakenge)

CAREER

I am a geospatial engineering professional passionate about integrating geospatial science with software development to deliver innovative, data-driven solutions. Experienced in GIS, surveying, remote sensing, and photogrammetry, with proven ability to apply programming, machine learning, and web development frameworks to build tools and applications that address complex spatial challenges. Dedicated to continuous learning and advancing the frontiers of geospatial technology through modern computational approaches.

SKILLS

- **Geospatial Data Acquisition:** *Levelling, Total station, RTK essentials and GPS.*
- **Cartography and Mapmaking:** *QGIS and ArcGIS*
- **Database Management:** *PostGres SQL, PostGIS, MySQL*
- **Geospatial data Visualization:** *Utilizing Python, R, and QGIS*
- **Programming:** *Python*
- **Data Visualization:** *Tableau*
- **Satellite imagery manipulation:** *Remote Sensing, GEE(JavaScript)*
- **Machine Learning:** *TensorFlow, scikit-learn; supervised & unsupervised learning, neural networks, model evaluation, and geospatial ML applications (satellite image classification, predictive modeling).*
- **Web development:** *HTML5, CSS, JavaScript, Django*
- **Photogrammetry**
- **Computing skills:** *MSWord and Excel*
- Teamwork: Adaptability to work in a team.
- Effective communication skills.

EDUCATION

- **Machakos School** | *Year: 2016 – 2019*
- **University of Nairobi** | *Bachelor of Science (Geospatial Engineering) | Year: 2020 – Currently*

PROFESSIONAL EXPERIENCE

Internal Attachment (University of Nairobi; July 2024 – August 2024)

- Utilized Google Earth Engine (GEE) for remote sensing analysis, integrating GIS software like ArcGIS and QGIS for geospatial data processing and mapping tasks.
- Designed, created, and managed geospatial databases using Postgres SQL and QGIS, conducting route suitability analysis and optimizing spatial data handling.
- Developed compelling geospatial data visualizations using R-programming, transforming complex datasets into clear, actionable insights.
- Gained extensive field experience in data collection, including levelling, topographical surveying, and engineering surveys, ensuring precise and accurate measurements.
- Conducted static survey data collection using RTK technology and processed results through Compass Solution software to establish robust control networks.
- Developed an understanding of hydrographic survey data collection and processing techniques through an engaging interaction with the Kenya Marine and Fisheries Research Institute.

Attaché (Ministry of Lands and Physical Planning- Nyeri County; August 2024 – September 2024)

- Involved in General Boundary Surveys, Fixed Boundary Surveys.

- Survey data processing using AutoCAD to produce accurate boundary maps.

Customer Care Representative (CCI Kenya Ltd – Metro by T-Mobile Campaign; October 2025 – July 2026)

- Delivered exceptional customer support to Metro by T-Mobile subscribers by handling inquiries related to billing, account management, service activation, mobile devices, and network services.
 - Resolved customer issues efficiently through effective problem-solving and troubleshooting while ensuring high levels of customer satisfaction and first-contact resolution.
 - Built and maintained positive customer relationships through active listening, empathy, professionalism, and clear communication.
 - Managed high call volumes while accurately documenting customer interactions and maintaining strict compliance with company policies and data privacy standards.
 - Collaborated with team members and supervisors to consistently achieve quality assurance, productivity, and customer satisfaction targets.
 - Adapted quickly to new products, systems, and operational procedures within a fast-paced Business Process Outsourcing (BPO) environment.
 - Strengthened interpersonal, conflict resolution, multitasking, and time management skills by handling diverse customer concerns under demanding service-level expectations.
-

PROFESSIONAL COURSES

- **Python for Data Science** | Coursera | May 2022- August 2022 | <https://coursera.org/share/8f0110417d3aab1c3c8d7c1d68b3a7a6>
 - **Spatial Data Science** | Younsei University_ Coursera | August 2023 – February 2024 | <https://coursera.org/share/b3d93845c0412adb8590449e30742891>
 - **Web Development** (JavaScript and Python) | Harvard CS50
 - **Use of CORS network** | Measurements Systems LTD | November 2023
 - **Certified Space Professional** | Teaching Science and Technology Inc. | July 2024 -August 2024 <https://www.credly.com/badges/0d4533ee-fe4c-4c85-b2eb-6b9ff2f6718e>
 - **Global Mentorship Initiative (GMI) Graduate**
Global Mentorship Initiative | March 2024 – February 2025
-

LANGUAGES

- English (Fluent)
 - Swahili (Fluent)
 - French (Basic)
-

HOBBIES

- Poetry
 - Football
 - Travelling
-
